

Product: Orange Heavy Duty Fluorescent Windsock

At the Custom Windsock Company, our windsocks are hand sewn using water proof, UV resistant, polyurethane coated polyester that stands the test of time and weather. Our windsocks are used in airports, helipads, industrial facilities, refineries and high-risk applications around the world.

Product Highlights:

- **High quality fabrics:** Made of 300D PU Fluorescent polyester (180 g/m²)
- **Fluorescent:** Complies with EN 471:2003 Hi-Visibility Warning Clothing for Professional use
- **Water proof:** Complies with EN 343 Protection Against Rain
- **UV fade resistance:** Tested under ASTM G154-23 and resulted in only slight color change
- **Craftsmanship:**
 - Finished with 4 lines of stitching on the inlet mouth and outlet fly end
 - Includes gust protection band sewn into the mouth of the windsock to prevent grommet tear-outs during periods of high velocity wind gusts
 - Finished with heavy duty #2 brass grommets every 5" along the mouth circumference

Windsocks that are Made to Last

Our windsocks are made from 300D PU Polyester. High strength, yet responsive to winds. Our windsocks provide unparalleled longevity due to their water proof nature, resistance to UV rays and strength of the 300D weave.
