

HOSE SADDLES

HEAVY DUTY HOSE SUSPENSION SADDLES

- Offer an efficient and effective protection against accidents, environmental damages and wastefulness;
- Maintenance-free service;
- Its special design protects hoses from slipping and kinking, reduces premature hose failures and decreases the costs of hose replacements;
- Reduce risks to personnel working under or near a hoisted hose;
- Offers immediate protection without special implementation tools;
- Produced to meet the standard requirements of a wide quality control programme as well as the standard requirements of independent regulatory bodies;
- Operating at temperatures ranging from -40c° to 130c°, age-resistant and hydrolysis free;
- Anti-spark, isolating and anti-static construction;
- Resistant to fuel, oil, jet-fuel, most chemicals and petrol chemicals;
- Slings are easily replaceable when worn-out or damaged;
- Sizes ranging from 1 to 12 inches.

Application of hose saddles:

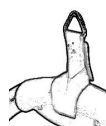

SIZES 1" TO 4"

Gas stations, hydraulic hoses, industrial hoses and cables, pumping, mines and power cables, construction sites etc.

SIZES 6" TO 10"

Dock hoses on offshore platforms, fish transfer hoses (reduces dents considerably), vacuum hoses, material handling hoses, food grade hoses etc.
