Oval 80° u. 2 & Oval 80° **HP**Radiant Tube Heater Specifications

Model Numbers Oval 80° HP		
Model Numbers	Oval 80° v.2	Oval 80® HP
Maximum Input (Btu/h): Single Stage	80,000	80,000
Tube Length (ft.):	20	20
Gas Supply Pressure Acceptable for the Purpose of Input Adjustment (PSIG) - Propane (max/min) - Natural Gas (max/min)	13.5/11.0 13.5/7.0	5.0 5.0
Fuel Consumption (max.): - Liquid Propane Gas (lbs./hr.) - Natural Gas (cu. ft./hr.)	3.7 80	3.7 80
Ventilation (CFM):	140	140
Spark Ignition:	Yes	Yes
Temperature Controls Available: - Individual Thermostat Control - Wired to House Environmental Control	Yes Yes	Yes Yes
Electrical Requirements (Volts / Hz / Phase):	115 / 60 / 1	115 / 60 / 1
Minimum Clearance to Combustibles (ft.): - Top - Side - Discharge End - Below Radiant Tubes	1 2.5 6 5	1 2.5 6 5
Heater Case Dimensions (in.): - Height - Width - Length	9.5 18 30	9.5 18 30
Net Weight (lbs.):	81	81
Shipping Weight (lbs.):	350*	350*
Reflector Material:	Polished Aluminum	Polished Aluminum
Tube Material: - First 10 ft. section - Balance	Aluminum Steel Steel	Aluminum Steel Steel
3/8" x 6' Gas Hose:	S	S
Hanging Hardware:	S	S
Regulator:	0	0
Piping Hardware, including gas shutoff:	0	0
Air Inlet Kit	0	0

^{*}Shipped in sets of 4

Oval 80 HP

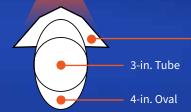

800-345-7200 / 608-783-5691 www.lbwhite.com

All the Great Features of the Original Model!

3 in. ROUND TUBE

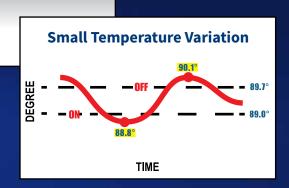

The smaller 3-inch tube quickly pushes the heat into the second tube, minimizing the hot spot directly under the unit.

A 3-inch round tube transitions to a 4-inch oval tube delivering a long, wide, oval heat pattern. No egg shape.

The unique reflector design, optimized for 80K Btu/h, maximizes the heat transfer to the sides, and minimizes the transfer of heat directly below.

The 4-inch oval shaped tube maximizes the radiant heat transmission to the sides due to the increased surface area directed to the side.

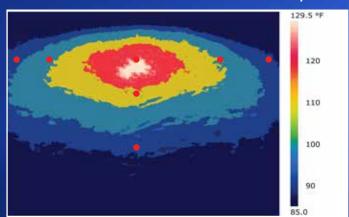

Still Easy to Install!

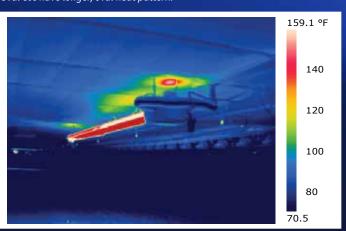

Oval 80 v.2 & HP radiant heaters are 100% test fired at the factory and come with all the components you need for easy installation.

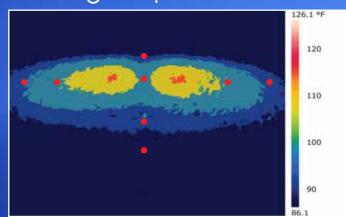

Still More Heat to the Floor / Cooler Ceiling Temperature

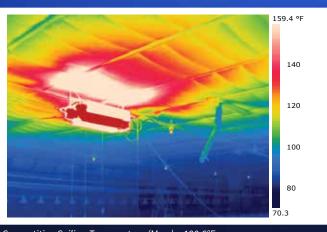

Oval 80s have longer, oval heat pattern.

Oval 80s' ceiling temperatures = 133°F. No need for insulation board above heater.

Competitive Unit

Competitive Ceiling Temperature (Max.) = 190.6°F.

Now Easier to Use and Maintain!

4 in. OVAL

Gas valve with higher durability

asier access service panel for gas control valve

Easier-to-remov

Brighter, easier-to-see indicator lights

latching system

New valve mounting bracket

Brood End

Air inlet relocated to follow heater tubes

Removable motor mount panel

Rotated fan housing for easier reach

outlet duct

Application - Example Heater Placement
