

Model 180M Spin Secure Locking Fill Cap & Adaptor

SPECIFICATION SHEET

Designed for tank filling applications where a tight fill connection is not required. The female threaded cap threads onto a male riser pipe or onto the male threaded adaptor.

Features

- Patented Spin Secure locking design provides maximum fuel theft protection
- Threaded adaptor can be permanently installed in cap converting it to a male threaded cap
- Cap has built-in fusible material that vents at 195° (+/-10°)
- Cap is vapor tight when properly installed
- Can be ordered in “keyed alike” quantities

Construction Details

- Zamack 3 cap
- Zamack 27 adaptor
- Viton® o-ring
