

818C & 918C Gallon Gauges

Standard float

Drop tube float

Features

- Easy to install on a 2" male or female threaded tank opening
- Vapor tight up to 5 PSI
- Swivel base rotates 360° for optimum viewing angle
- Measures liquid levels up to 12 feet (3.6 meters)
- Proven anti-fog design
- High level indicated by red zone indicator
- Stainless steel float and cable
- Drop tube float and drop tube available for tanks with higher-than-normal turbulence
- Compatible with Ethanol blends up to 85%
- Compatible with Biodiesel blends up to 100%
- Intrinsically safe alarm is battery powered
- Liter reading gauges available
- **918C** includes field adjustable 90 decibel high level audible alarm

The Morrison model 818C & 918C Gallon Gauge is used to measure the liquid level in an aboveground storage tank. The gallon gauge provides an approximate read out clearly displayed in gallons, and can easily be read from 20 feet away. Eliminates the need to convert feet and inch gauge readings to gallons.

STEP 1: Select gauge.

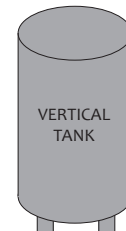

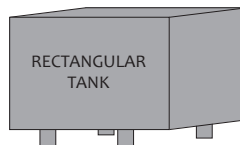

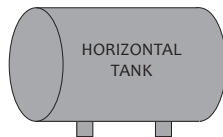

818 Models		
818C--0100 AG	2"	Clock gauge, male threads, standard float, no face
818C--0100AGEVR	2"	Clock gauge, male threads, standard float, no face, EVR
818C--0400 AG	2"	Clock gauge, male threads, drop tube float, no face
818C--0400AGEVR	2"	Clock gauge, male threads, drop tube float, no face, EVR
818CF-0100 AG	2"	Clock gauge, female threads, standard float, no face
818CF-0100AGEVR	2"	Clock gauge, female threads, standard float, no face, EVR
818CF-0400 AG	2"	Clock gauge, female threads, drop tube float, no face
818CF-0400AGEVR	2"	Clock gauge, female threads, drop tube float, no face, EVR

918 Models		
918C--0000 AG	2"	Clock gauge less alarm, male threads, standard float, no face
918C--0000AGEVR	2"	Clock gauge less alarm, male threads, standard float, no face, EVR
918C--2000 AG	2"	Clock gauge less alarm, male threads, drop tube float, no face
918C--2000AGEVR	2"	Clock gauge less alarm, male threads, drop tube float, no face, EVR
918C--0100 AG	2"	Clock gauge with alarm, male threads, standard float, no face
918C--0400 AG	2"	Clock gauge with alarm, male threads, drop tube float, no face
918CF-0000 AG	2"	Clock gauge less alarm, female threads, standard float, no face
918CF-0000AGEVR	2"	Clock gauge less alarm, female threads, standard float, no face, EVR
918CF-0100 AG	2"	Clock gauge with alarm, female threads, standard float, no face
918CF-0400 AG	2"	Clock gauge with alarm, female threads, drop tube float, no face
918CF-2000 AG	2"	Clock gauge less alarm, female threads, drop tube float, no face
918CF-2000AGEVR	2"	Clock gauge less alarm, female threads, drop tube float, no face, EVR

STEP 2: Determine tank shape.

Note:

Clock Face labels cannot be retrofitted to existing gauges in the field.

STEP 3: Select clock face based on tank size.
