

12V HDM ECO 80

Diesel Smart Dispensing Package

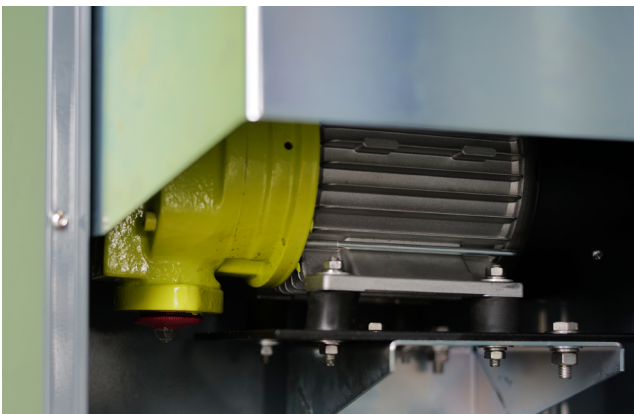

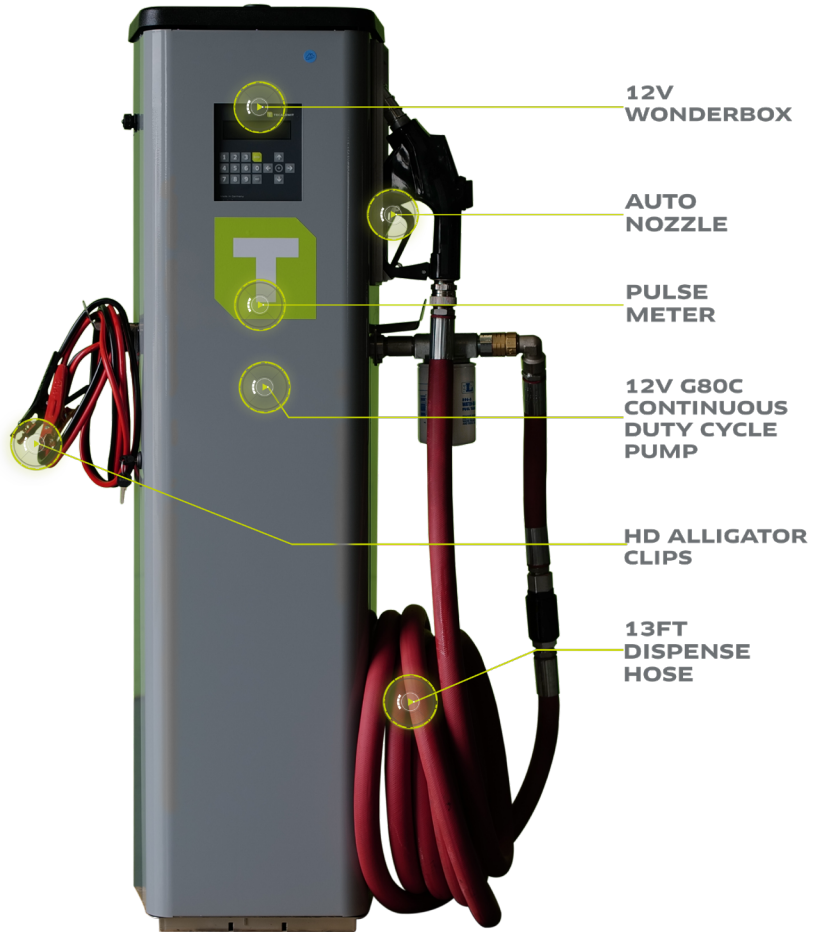

TURNKEY AND VALUE-DRIVEN SOLUTIONS

TECALEMIT's fuel dispensing equipment solutions have evolved for the sole purpose of offering better and more efficient user-friendly packages.

Meet the 12V HDM ECO 80: A much-needed, evolution of the traditional approach to fuel management. This system allows you to monitor & track product in a location that isn't constantly connected to traditional power, such as on a worksite, agricultural setting, or off-road/mining.

Available in standard configuration with the G80C continuous duty cycle pump, the FMOG 100 meter, and a 12V Wonderbox. This new 12V HDM Eco 80 is the latest evolution in fuel management!
