

# HORNET W85

## DIESEL EXHAUST FLUID TRANSFER PUMP

### CONTINUOUS DUTY CYCLE TO KEEP OPERATIONS MOVING

### HORNET W85 DEF

#### TECHNICAL SPECIFICATIONS & FEATURES

100% continuous duty cycle	
Thermal overload protection	
Capable of pushing product through hose lengths of 100 ft.	
Suction lift:	13 ft.
Power:	115/60 V/Hz
Discharge hose:	20 ft.
Max. pressure:	36 psi
Flow rate (with accessories):	10 gpm
Inlet:	1" FBSP
Outlet:	1" FBSP
Dimensions (W x D x H):	8" x 5" x 10"

PART #	DESCRIPTION
US108601200	HORNET W85 DEF TOTE PRO
US108600400	HORNET W85 DEF DRUM PRO
US108600006	HORNET W85 DEF PUMP ONLY
US108600005	HORNET W85 DEF PUMP & METER ONLY

CONTINUOUS  
DUTY CYCLE

PATENTED  
HYBRID PUMP  
TECHNOLOGY

13 FT.  
SUCTION LIFT

THERMAL  
OVERLOAD  
PROTECTION

PUSHES PRODUCT  
THROUGH  
25, 50, 100 FT.  
HOSE LENGTHS

The proprietary technology found only in TECALEMIT's Hornet W85 pumps make them one-of-a-kind systems. Featuring both vane and centrifugal combination systems, the Hornet W85 offers a continuous duty cycle.

Dispense longer distances, witness greater suction lifts, and experience higher flow rates with the Hornet W85. Designed to be used with drums, totes, and tanks, the Hornet W85 is versatile. Built only with the highest quality, it was created to stand the test of time.

The W85 Hornet pump has become the heart of our systems because it has been used in our mini DEF bulk tank packages and specialty applications where a true continuous duty cycle is needed along with the need to tackle 100ft long dispense runs.

#### SPECIAL APPLICATIONS

Heated and insulated remote DEF dispensers with Hornet W85 DEF pump driving the solutions.

Hornet W85 powering up mini bulk tank packages and pushing through multiple size hose reels (up to 100ft).
